COAXIAL  
CONNECTORS

**Japan Aviation Electronics Industry, Ltd.**

## **Standard-type processed harness products**

## ■ Placing an order for standard-type processed harness products

For placing an order for cable connection type processed harness products, please specify the following.

### 《Connection Style》

#### 1. One-end Termination

1-a : Straight Type

1-b : Right-angle Type

#### 2. Both-end Termination

2-a : Straight Type to Straight Type

2-b : Straight Type to Right-angle Type

2-c : Right-angle Type to Right-angle Type

You can specify the mounting angle of the connector in units of 90 degrees from the one-end connector.

■ In addition to the harness products in this catalog, we can process harnesses to meet the customer's specifications. Please contact us for further information.

---

## ■ Placing an order for standard-type processed harness products

---

### 《How to order》

#### 1. Connection style and connector to be used

Specify your desired style of cable connection from the list on the preceding page and the "series name or type" or "model name" of the connector used.

Ex. Connection style : Both end termination(Straight to Straight)

Connector : SMA • Plug to SMA • Jack

#### 2. Cable type

Specify the type of cable to be used from the list of cables compatible with the connector.

Ex. 1.5D-2V Cable

#### 3. Cable length

Specify your desired cable length in units of millimeter.

For the regulation position of the cable length, see the connection style diagram on the preceding page.

Our internally-regulated general tolerance of " $L \pm 5\%$ " is applicable.

#### 4. Quantity required

Specify the quantity of your order.

---

## Before placing an order

- ①The values specified in this catalogue are only for reference. The products and specifications are subject to change without notice. Contact our sales staff for further information before considering or ordering any of our products.  
For purchase, a product specification must be agreed upon.
- ②Users are requested to provide protection circuits and redundancy circuits to ensure safety of the equipment, and sufficiently review the suitability of JAE's products to the equipment.
- ③The products presented in this catalogue are designed for the uses recommended below.  
We strongly suggest you contact our sales staff when considering use of any of the products in any other way than the recommended applications or for a specific use that requires an extremely high reliability.

**(1)Applications that require consultation:**

- (i)Please contact us if you are considering use involving a quality assurance program that you specify or that is peculiar to the industry, such as:  
Automotive electrical components, train control, telecommunications devices (mainline), traffic light control, electric power, combustion control, fire prevention or security systems, disaster prevention equipment, etc.
- (ii)We may separately give you our support with a quality assurance program that you specify, when you think of a use such as:  
Aviation or space equipment, submarine repeaters, nuclear power control systems, medical equipment for life support, etc.

**(2)Recommended applications include:**

Computers, office appliances, telecommunications devices (terminals, mobile units), measuring equipment, audiovisual equipment, home electric appliances, factory automation equipment, etc.
